The Song of the Cradle.

Bye, bye! Hope rides high:
There's a sweet little cradle hung up in the sky;
A dear little life that is coming to bless;
Two soft chubby hands that will pat and caress;
A pure little soul winging down from above;
A darling to care for, a baby to love.

One of the grandest agencies which enlightened Science has discovered to relieve motherhood from excessive suffering is the "Favorite Prescription" devised by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.

This wonderful "Prescription" imbues the entire nervous system with natural, healthy vitality; gives elastic vigor to the delicate organism specially concerned in motherhood, and makes the coming of baby entirely free from danger and almost free from pain.

"I wish to state that I have used Doctor Pierce's Favorite Prescription with very good results," writes Mrs. Katie M. Annis, of Hudson, New Hampshire. "Had been in poor health for over four years and had been twice in the hospital. My husband brought some of your 'Favorite Prescription,' and it has carried me easily through my last two confinements. We are now blessed with two healthy children, and I am sure your medicine has done me more good than all the other treatment I have ever received."

BAD HEADACHES generally arise from bad stomachs. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas, are common symptoms though not all present in every case. To cure, take small doses, only one or two each day, of old Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

"Logical and Just"

Mr. Edwin Hebden, who submitted a scheme of assessment rates at the meeting of the Supreme Council of the Royal Arcanum at Put-in Bay, Ohio, as a substitute for the rates adopted in May at Atlantic City, returned home yesterday. Mr. Hebden's substitute was not accepted, the new rates being reaffirmed with amended provisions for the benefit of the old members by a vote of the Supreme Council adopting the report of the special committee on assessments.

Mr. Hebden said that he believed the new arrangement is both logical and just. In addition to reaffirming the rates, the committee recommended an amendment to the laws providing "that any member 65 years old and over, or hereafter reaching that age, may pay only one-half of the prescribed amount of the assessment, and the balance with 4 per cent. interest, compounded annually, shall be charged against his benefit certificate and deducted therefrom upon the payment of benefit."

"I don't think this will work any great hardship upon the old members," Mr. Hebden said, "I don't think that the amount to be deducted from their benefits will amount to $50 in any instance. Considering the premiums that have been paid in the past, I believe that the new rates are fair. There may be some dissatisfaction among some of the older members, but I believe that will pass away when they understand the situation more thoroughly."

The following statement concerning the final determination of the Royal Arcanum convention was authorized at Put-in-Bay by Supreme Secretary Robson:

"An amendment was adopted for the reinstatement without new medical examination of members suspended since June 1, if they apply for reinstatement before November 30.

"The proposition to create a fraternal fund by annual contributions of 20 cents from each member to be used in payments of assessments of aged members was referred to an executive committee, with power to procure the necessary State legislation, the proposition being contrary to the laws of Massachusetts.

"An amendment was adopted providing that members more than 65 years of age may pay only one-half of their assessments and that the remainder may be charged against their certificates, deduction to be made when the benefits are paid."

The Supreme Regent was directed to act upon the reading of unauthorized circulars in the councils.

A Determined Suicide.

Baffled in repeated attempts at self-destruction which he had tried to accomplish by ordinary methods, Peter Ardine, 32 years old, of Patterson, N. J., outwitted the keepers in the county jail and finally accomplished his purpose. He stood on his head in a padded cell until a blood vessel burst, causing death from hemorrhage.

Ardine attempted to committed suicide Monday night by jumping into the Passaic river. He was rescued and taken to jail. During the night he inflicted several wounds on his body and had otherwise tried to kill himself. After being committed Ardine succeeded in again lacerating his arms and body in attempts to sever a vein. On Tuesday night Sheriff Bergin summoned the county physician (McBride), who made an examination of the man and decided that he was insane. He ordered him placed in a straitjacket.

This was accomplished after Ardine had knocked down and injured several of the keepers in his maniacal struggles to prevent them placing the jacket on him. After the jacket had been adjusted Ardine was placed in a paddeld cell.

Despite the fact that he was secured in the jacket with his arms pinioned, he would jump from his cot and stand on his head in a corner of the cell. Believing that this would do him no harm, the keepers refrained from strapping him to the cot. During one of his frantic actions, after he had jumped from the cot and had stood on his head for a few minutes, a blood vessel was ruptured and he died within a few moments.

Christianity in Japan.

The war of Japan with Russia has been the occasion, a bulletin of the Presbyterian Board of Missions says, of a turning toward Christianity by the Japanese people. A war evangelistic bureau has been established by the Church of Christ in Japan, which is the union of all the Presbyterian bodies of converts. This bureau keeps in touch with the army and navy, supplying them with Christian literature, looking after their families and preaching to soldiers in barracks or on the way to the front. A notable tendency in Japan is the movement toward church independence. A strong feeling exists among many pastors and Christians in Japan that they should be given such complete ecclesiastical independence that the missionaries shall be in no way responsible for the government and discipline of the church. Some urge a plan of co-operation between the native church and the missions.

Incredible Brutality

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at E. S. RIOTING in Tokio and the reported stoning of Marquis Ito and E. H. Harriman, now touring Japan with Mr. and Mrs. Robert Goelet and other Americans, indicates a militant disapproval of the peace terms among the Japanese populace which is considered very grave in official circles in Washington. The Harriman incident may prove serious in the extreme, particularly if it is deemed necessary to demand an apology on behalf of Mr. Harriman. The Japanese could easily be led to think that the peace terms as finally agreed upon were forced upon Japan through the stubborn insistence of Mr. Roosevelt that peace be made. An anti-American prejudice in Japan at the present time, in conjunction with the boycott in China, would make the United States somewhat friendless in the Orient. If an apology is demanded, the popular feeling in Japan would probably be accentuated. Secretary Taft, homeward bound on the Korea, will touch at Nagasaki in the next few days. The nature of his reception will be awaited with anxious interest by the State Department. If the feeling grows in Japan Miss Alice Roosevelt and her friends, who anticipated a farther tour of the empire, may have to forego that part of the trip. There is a bare possibility that if popular criticism of the peace terms develops further Emperor Mutsuhito might reconsider the ratification of the treaty. On the other hand his subjects as a mass feel the utmost reverence for their emperor, and on the principle whatever he does is right, the Japs may eventually accept the treaty resignedly.

THE WAR between Russia and Japan has virtually been brought to a close, but it seems that the storm centres have shifted from Manchuria to the Caucasus and Tokio and civil war is about to follow. The Japanese, heretofore submissive and docile toward their officials, appear to be on the verge of revolt over the outcome of the recent peace negotiations, and Maquis Ito, heretofore regarded as a Mongoliao idol, was stoned in the streets of the Japanese capital today, together with prominent Americans, while a mob burned the residence of the Minister of the Interior. While such scenes are being enacted in Tokio, parts of Russia are aflame and practically in the hands of red-handed insurrectionists, who are burning, murdering and plundering at will. The military is unable to cope with the situation and the greatest appresension exists.

FOR MONTHS past the republicans of Maryland have been attacking Mr. Gorman and the democrats of his State for their efforts to put Maryland in charge of a white electorate, but in their platform adopted at their State convention yesterday they inserted a plank in which they decry negro domination, and express an unalterable opposition to social equality. This declaration is ahead of anything the republican party has yet made and shows its inconsistency. In time the negroes will find out that the democrats of the South are their best friends.

PRESUMABLY to end the scandals in the government printing office, in Washington, President Roosevelt has demanded the resignation of Public Printer Palmer, naming the 15th of this month as the date when it must take effect. He should now insist upon the resignations demanded by Mr. Palmer of Messrs. Ricketts and Hay and appoint a new man as public printer who will "clean out" the entire office which is now believed by many to be reeking with corruption. But will he do it?

THE beef packers scored against the government in Chicago Tuesday by obtaining a postponement of their trial for violation of the anti-trust laws, which will enable them to apply for an injunction against prosecution, or, falling in that, to apply for twenty-one separate trials. The trusts have limitless resources.

Evangelist in Jail.

Rev. James M. Cox, who has had a brilliant evangelistic career in Virginia and Tennessee, was lodged in jail at Jonesboro, Tenn., yesterday on a charge of chicken theft and perjury. He had been wanted in Washington county, Tennessee, since last March, when he left the State to avoid arrest. He was located at Saltville by Sheriff Smith, who learned his whereabouts by baggage that was being forwarded to him from east Tennessee. When Sheriff Smith arrived at Saltville to arrest Cox he found that his man had just perfected arrangements for a large building in which he hoped to hold the greatest revival in the history of Saltville. Just when he was ready to enter upon a religious conquest he felt the hands of the Sheriff upon his shoulders and a moment later was in handcuffs and on his way to the depot to be sent away on the first train. Saltville was in a state of awe and excitement over the unexpected turn that abruptly ended plans for a big revival. Cox waived his right to a preliminary hearing and will endeavor to arrange for bond. It is alleged that for some time he had been disturbing chicken roosts. He is said to be well connected.

From Washington

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Sept. 7.

Friends of Oscar J. Ricketts, foreman of printing of the government printing office and a candidate for the position of Public Printer to succeed Frank W. Palmer, whose resignation has been requested, are claiming the support of every member of the Senate committee on printing for Ricketts. It is said that Chairman Platt, of New York, intimated to the President, when it became known that Palmer would be asked to step out, that he would be pleased to see Ricketts appointed. Within the last few days Senators Elkins and Gorman have written to the President, it is said, in the foreman's behalf. Chairman Keep, of the commission, to which the charges of insubordination brought by Palmer against Ricketts and Foreman L. C. Hays were referred, has not received further instructions as to the desire of the President to have the commission pursue the investigation in view of the fact that he has asked for Palmer's resignation.

Commissioner Cooley of the Civil Service Commission stated this morning that the report of L. S. Fisher, special agent of the commission who was sent to Newport News, Va., to investigate the charges preferred by Congressman Maynard and other leading democrats of Virginia against Collector of Customs J. E. B. Stuart at Newport News, would be sent to the President for his disposition.

Commissioner of Pensions Warner today made public his annual report for the fiscal year ended June 30, 1905. The number of pensioners on the rolls at the office at the close of the fiscal year was 998,441 an increase of 3,679. The maximum of pensioners was attained in January 1905, when the number was 1,004,196. The sum of $141,142,861 was disbursed for pensions during the past year, $133,022,170 to survivors of the civil war. The total amount paid for pensions since the foundation of the government was $3,320,860,022 and of this amount $3,144,395,405 were paid on account of the civil war.

Mr. J. Martin Miller, the former newspaper man who was appointed United States Consul at Aix-la-Chappelle, Germany, and to whom the German government has thus far declined to give an exequatur, called at the State Department this morning for the purpose of explaining to acting Secretary Loomis the reasons assigned by Germany for refusing to grant his exequatur. When Mr. Miller was a war correspondent in China during the Boxer uprisings of 1900 he wrote several articles severely criticizing the German military authorities for executing several alleged Boxers. Mr. Miller then stated that these men were innocent and should not have been shot by the Germans. A few years ago Mr. Miller also wrote an interview with Admiral Dewey in which he quoted the Admiral as criticising the Germans in Manila Bay. To both of these articles Germany, it seems, has objected. It also seems that Germany objects to the appointment of American newspaper men to consul positions on the ground that they are entirely too inquisitive in investigating the commericial relations of Germany with other countries. At the conclusion of his interview with Mr. Miller acting Secretary Loomis said that no decision had as yet been reached regarding his case. It is thought probable, however, that Mr. Miller will be transferred to another post.

The return to this country of Mr. Grip, Minister of Norway and Sweden, has occasioned no little surprise among officials of the State Department Mr. Grip was an early caller at the State Department this morning, having just returned to this city from a visit to Norway and Sweden, and explained to acting Secretary Loomis that his status was at yet unchanged and that he still represented Norway and Sweden as one nation. When Mr. Grip hurriedly and unexpectedly left this country several weeks ago it was not believed that he would return in his ministerial capacity. He is a Norwegian and it was thought at the time of his departure that he would throw his lot with Norway as an independent sovereignty.

Secretary Wilson of the Department of Agriculture left last night for Huron, S. D., where he will make an address of an informal nature at the State fair on Monday. On his return trip to Washington he will spend a few days at his home in Iowa and will probably be absent for ten or fifteen days. For the first time this summer Washington is absolutely deserted by the high officials of the government. The White House is located temporarily at Oyster Bay and every Cabinet official is away on vacation.

Morgan H. Beach, who recently resigned as U. S. Attorney for the District of Columbia, has been appointed a special assistant to the Attorney General for the purpose of conducting the government's case in the cotton report scandal.

Washington Woman Scalded to Death.

Miss Fannie A. Weeks, of 809 Twelfth street northwest, Washington, an employee of the Treasury Department, was scalded on August 27 by falling into the Grand Geyser Pool, Yellowstone National Park, dying after terrible sufferings at Livingston, Mont., on September 4. While standing near the Grand Geyser, part of the shore line of the pool, formed of soft carbonate of lime, gave away beneath her weight. She sank to her elbows in the boiling water, and was frightfully burned about every part of her body, which was submerged before rescued by bystanders. Miss Weeks was about fifty-two years old, and weighed nearly 200 pounds. The accident is believed to be the first of this character ever to have occurred in Yellowstone Park, although thousands of visitors annually visited the geysers there.

Beaten and Robbed.

A. R. McCorkle, of Harrisonburg, has informed the Washington police that he was the victim of a hold-up yesterday morning while in a cab on Pennsylvania avenue, near Tenth street. He says he was beaten and roobed of $48 which he had in an inner pocket. McCorkle told the police that he was riding in a cab about the streets in the center of the city, and shortly after midnight a large negro jumped into the vehicle and, knocking him senseless, went through his pockets, getting his money and then taking flight. McCorkle said he was intoxicated at the time, and could furnish the police with little information regarding the man who attacked and robbed him.

News of the Day.

Albert T. Baker shot and killed himself on his wife's grave in a Philadelphia cemetery yesterday.

That elections of officers of mutual life insurance companies is a cut and dried affair was testified yesterday at the first hearing of the New York legislative investigating committee.

After five hours' fighting at Naibutu, on the island of Sakhalin, the Japanese defeated the Russians, killing 180. Two small battles were fought in northern Korea on September 1, the Japanese being victorious.

Rioting broke out at Tokio Tuesday night in connection with the dissatisfaction over the results of the peace settlement. There were several clashes with the police, and it is expected that two persons were killed and 500 wounded. The rioting ceased at midnight. Police stations were the only property destroyed.

An investigation of the crab industry in Maryland by an expert of the Bureau of Fisheries shows that that State is far in the lead of other States in all forms of the industry. Thousands of men are employed in Maryland alone and millions of crabs are caught. Crisfield, it is demonstrated, is the greatest crab-shipping point in the United States.

Private advices from Kishineff say that street fighting continues there. Roughs are sacking the Jewish shops, killing or wounding many of the inmates. It is said that over a score of soldiers have been killed. The Jewish self-defense committee is active in organizing resistance to the troops. The affray originated in an attempt of the authorities to disperse demonstrators at the funeral of a Jewess.

The Maryland republican State convention in Baltimore yesterday adopted a platform consisting of a denunciation of the suffrage amendment, which was also attacked by Secretary Bonaparte, the presiding officer, and others, and Mr. John B. Hanna was re-elected State chairman for two years. A feature was the declaration in the platform that the republicans in Maryland were opposed to negro domination and the social equality of negroes and whites. This is a little more radicule than anything yet enunciated in a party platform of republicans in the State.

An imperial order was issued in St. Petersburg yesterday dismissing Rear Admiral Nebogatoff and the captains of the battleship Nicolai I (now the Iki), and the cruisers Admiral Seniavin (now the Minoshima) and General Admiral Apraxine (now Okinoshima), which were surrendered to the Japanese in the battle of the Sea of Japan. All four officers, besides being deprived of their rank, are liable to punishment under the provisions of the naval penal code. The Emperor has ordered all other officers who surrendered their vessels to be tried on their return to Russia.

The Anglo-Japanese treaty, it was said at the British foreign office yesterday, will be ready early next week, but before publication it will be communicated to the powers. When the war broke out in the far East and Japanese successes were recorded, fears were expressed in some quarters that Germany's hold on Kiaochou, Shantung peninsula, would be threatened if Russia was defeated. There seems to be some understanding that there will be no interference with Germany's development of her Chinese colony, as the German officials in London express satisfaction with the new arrangement between Great Britain and Japan. While Weihaiwei may not be mentioned in the treaty, it is believed that Great Britain is likely to evacuate that port.

Spread of Cholera.

An official bulletin just issued in Berlin says that 13 new cases of cholera and 2 deaths were reported during the 24 hours ended at noon yesterday, making the total 90 cases and 26 deaths.

The infected area was sensibly widened yesterday. The river Oder has become tainted. Three cases have been reported from the administrative district of Frankford-on-the-Oder in three small places along the stream among the rivermen. Thirty boatmen have been quarantined at Kustrin, a railway town near the union of the Oder and the Warthe. Sharp sanitary precautions have been taken throughout the district.

Three fresh cholera cases and one death have been reported in Marienwerder administrative district.

One death from cholera has occurred at Bromberg.

A case of cholera, the third up to date, was found yesterday in the heart of the business and hotel district of Hamburg.

Sues Senator Platt.

Mae Catherine Wood, of "Love Letters of a Boss" fame, yesterday in Omaha filed suit against Senator Platt and the United States Express Company for $25,000 and attaching the property of the company in Omaha and garnisheeing the salary of Senator Platt as president of the company. The petition was filed late in the afternoon and before the sheriff could attach the property the express office closed for the night. The attachment and garnishement will be served early today. Miss Wood bases her claim to $25,000 on the ground that she acted as attorney for Platt and the express company when she was in the Postoffice Department at Washington, and that it was through information she gave Platt that Postmaster-General Payne's recommendation for the post-check system was changed after Payne had announced to the newspapers that it would go through.

Killed Baby with Razor Strop.

Inspector Flood and the police of the west Forty-seventh Street Station, N. Y., believe that within a day or two they will get further confessions from Gus Dinser and his mistress, Agnes Renaud, concerning the murder of Gertrude Renaud, child of passion of the Renaud woman and a clerk in a Sixth-avenue department store. The police base their hope of a further confession from either the man or woman because of the finding yesterday in the flat where Dinser and the woman lived of a blood-stained razor strop. The nickel head of the strop, smeared with blood, is about an inch wide, just about the length of some of the wounds on little Gertrude's face.

Inspector Flood showed the strop to Dinser yesterday afternoon, and asked him why he had found it necessary to beat the child with it. The man replied that he had never seen the strop before. The Renaud woman admitted, however, that the strop may have been Dinser's, and that he had probably used it to spank the baby when she was naughty, etc.

Letter to G. Wm. Ramsay.

Alexandria, Va.

Dear Sir: You sell a good many things by the gallon. Being a decent man, you give a full measure.

You know what we mean; you know that short weight and short measure are common among—well, we hope there are no short measures and weights in your town.

There are, though. Ribbons and laces and trimmings, sold by the "dozen," measure nine or ten yards. There is no complaint, because "they all do it." You have the same plague in your goods—nearly everything, canned or bottled, chests in the quantity. Almost nobody gives full weight in a factory-package!

We are one of the almost nobodies. We sell paint, by the gallon, to paint your house; and our gallon is just the same size as yours that your measure vinegar with—231 cubic inches.

Good paint too—Devoe "lead-and-zinc"—takes fewer gallons than mixed paint and wears twice as long as lead-and-oil.

You own a house. That's why we are writing to you.

Yours truly,

Today's Telegraphic News

Riotous Tartars and Armenians.

St. Petersburg, Sept. 7.—The troubles at Baku continues unabated, according to the latest reports received here, and the situation, if anything, is growing worse constantly. Over 500 oil wells are now reported to have been destroyed as the result of the policy which has been adopted by the rioting Tartars and Armenians of setting fire to the tanks and wells, and the damage is enormous. It will be a long time before operations can be resumed.

The heat from the burning wells is so intense that the troops who have been fighting the flames have been obliged to abandon their efforts to extinguish the great blaze. Workmen living in the vicinity of the wells have been forced to desert their homes on account of the heat and the danger of the flames spreading to their houses.

Reinforcements for the troops who have proved unable to deal with the fighting Tartars and Armenians have been ordered from Tiflis to Baku by the viceroy of the Caucasus, but it is exceedingly doubtful, owing to conditions in the district, whether the soldiers, even with the assistance which has been sent to them, will be able to quell the antagonists who seem bent upon exterminating each other.

Naptha refiners at Baku declare that they have lost everything as the result of the firing of the oil wells and storage tanks.

To make the situation worse, agrarian disorders have broken out in the district of Taganrog, where riotous peasants and farm laborers have been pillaging and burning the estates of landlords.

The lack of troops in the district has laid the country open to the ravages of the rebels.

A telegram from Balakahanya, where many of the largest oil wells in Russia are located, states that the entire place has been reduced to ashes.

It is feared that the disorders in the Caucasus may lead to complications throughout other parts of the empire and the Czar has telegraphed to the viceroy of the Caucasus again giving peremptory orders that he must stamp out the revolt there at any cost. Acting under these instructions the viceroy has ordered the troops which have been dispatched to reinforce the soldiers at Baku to use rigorous measures.

Tiflis, Russia, Sept. 7.—Reports which have reached here from various parts of the Caucasus in regard to the disturbance, which have occurred say that at Baku the rioting was resumed last night, on a greater scale than ever before.

An official statement announces that the situation is serious. Among other acts of violence the rioters fired on the house of the Governor. At Balakhany the force of soldiers is far from adequate to cope with the rioters. It was necessary for the artillery there to fire on the rioters in the attempt to subdue them.

At Bielostok the son of a factory owner named Krikum has been arrested as the man who last night attempted to assassinate Commissioner of Police Samsonoff. A double attempt was made upon Samsonoff as, after throwing a bomb at him, the would-be assassin fired a revolver at the official. Samsonoff was badly wounded.

St. Petersburg, Sept. 7.—The latest advices from Baku says that the condition there is hopeless. The whole city is now on fire.

London, Sept. 7.—A Russian firm here has received a telegram from Baku, which says that the Arsenal there has been blown up. Great havoc was caused by the explosion, and many casualties have resulted.

Serious Conditions in Tokio.

Tokio, Sept. 7.—At 3 o'clock this morning all was quiet in the city, but it is feared that there will be a renewal of the rioting of yesterday in the evening.

Tokio, Sept. 7.—Marquis Ito, Japan's foremost statesman and for years the idol of the populace, and Edward H. Harriman, the American railway magnate, were stoned in the streets here today by a mob, but neither was injured. The demonstration is regarded as a manifestation of the bitterness with which the Japanese have received the news of the peace terms agreed upon at Portsmouth. When Marquis Ito and Mr. Harriman appeared today together a crowd quickly gathered. Leaders in the rioting of yesterday were in the crowd, and they began the jeering at the Japanese statesman. Marquis Ito took the matter coolly, however, until one threw a stone at him. In a moment the crowd had transformed itself into a wild mob, and many missiles were thrown. The police heard of what was happening and charged the mob, soon dispersing the people. Marquis Ito is blamed more than any one else for the acceptance of Russia's conditions in the peace terms, and in view of the temper which has been manifested by the people at the outcome of the Portsmouth conference the demonstration against him was not so remarkable. The United States is blamed in some quarters for the loss of an indemnity by Japan and this may account for the attitude the mob assumed toward the American financier. Threats were made against him during the outbreak and Mr. Harriman was manifestly worried.

Tokio, Sept. 7.—A mob today burned the residence of the Minister of the Interior, Yoshikawa Akimasa.

Tokio, Sept. 7.—After attacking the office of the Kokumin, the organ of the government, as had been described previously in these dispatches, the mob was bent upon manifesting its displeasure at the peace terms and proceeded to the residence of the Minister of the Interior. The police guard was overpowered by the rioters and the building was burned. The mob then threatened to attack the residences of other Cabinet members, but the police intervened and forcibly prevented the rioters from doing any further damage.

Affairs in St. Petersburg.

St. Petersburg, Sept. 7.—Arrangements have been made to celebrate the signing of the treaty of peace by holding a great religious service today at Peterhof. A Te Deum will be sung. The Czar and the entire imperial family will attend the service.

It is reported that a sum of 500,000,000 roubles has already been set aside for the construction of a new Russian fleet.

The municipality has decided to offer M. Witte the freedom of the city on his return home, as a mark of honor for his successful negotiation of the peace treaty at Portsmouth. The Czar has approved the plan.

The Market.

Georgetown, Sept. 7.—Wheat 80a80.

Famine in India.

Lahore, India, Sept. 7.—The famine which it is feared will overtake Rajaputana regions owing to the long drought which has ruined the crops, threatens to be the worst in the annals of British India.

The people are already living in dread of the famine and emigration of the inhabitants of the region has already begun on a wholesale scale. Fears are entertained that an epidemic of cholera may accompany this emigration as the disease generally makes its appearance during the progress of any general unorganized movement of people.

The prices of food have already advanced, giving a foretaste of what may be expected later, and the authorities take a pessimistic view of the outlook for the future.

The export wheat trade has become disarranged and the greatest uneasiness prevails throughout the country.

Accident to Excursion Train.

Newcastle, Pa., Sept 7.—The Western New York and Pennsylvaia excursion train that left Newcastle this morning at 7:35 was wrecked shortly after that time at New Wilmington Junction. The railroad company refused to give out any information and the nearest telephone is not within miles. Reports are probably greatly exaggerated, and state that many have been killed and injured. The railroad company has called out all of the doctors and ambulances in the city to meet the relief train which will be here shortly—just as soon as the injured can be removed. Great consternation reigns in this city, owing to the fact that a great number of Newcastle people are among the passengers. J. C. Blevins at Neshannock Falls, telephones that the wreck occurred one and half miles south of New Wilmington, and that two people were killed and a number injured. The baggageman on the train was badly injured. The excursion train was running to make the junction siding. Both trains were derailed and more or less wrecked.

Struck by a Train.

Pittsburg, Sept. 7.—One man was killed, another fatally injured and three others seriously hurt by being run down by a train on the Pennsylvania Railroad at Homewood station at 6:31 this morning. The men are employes of the Westinghouse Company at East Pittsburg, Pa. and were standing on the tracks awaiting their train, when a fast passenger train coming from the opposite direction ran them down. About forty employes of the Westinghouse Company are said to have been watching for the train to convey them to the works. The train was almost due and some of the men are said to have been standing on the west bound track adjoining the platform when train No. 301, westbound, dashed past the station. Before all of the men reached places of safety the train was upon them.

Fight with Desperado.

Omaha, Neb. Sept. 7.—Pat Crowe, supposed kidnapper of Eddie Cudahy, had a desperate battle with the Omaha police last night and is thought to be seriously wounded and to have taken refuge in a block of high weeds. Crowe was assisted in his fight by a comrade, shought to be a horse-thief named Johnton, of Missouri Policeman Jackson is lying at the hospital badly wounded with a bullet through the body, the result of a shot fired by Crowe. After being shot the policeman pluckily lay on the ground and drew his gun and battled with the two desperadoes until he fired all his bullets, and then fainted from loss of blood. After the shooting Crowe and his comrade escaped.

Nurse Killed by Negro.

Philadelphia, Sept. 7.—Emma Bowers, a white trained nurse, was shot to death shortly after noon today in a house on Pearl street, by Isaac Bishop an elderly negro, with whom she is said to have formerly lived. Three bullets lodged in the woman's body and she died almost instantly. After committing the crime, Bishop ran into the street and was only captured after a wild chase lasting nearly half an hour. He admitted his crime, and said he was glad the woman was dead, as she had ruined his home and life.

Ball of Fire From Clear Sky.

The sun was shining brightly at the time, but in an instant the wind shifted from west to south and there was a deluge of rain for nearly an hour.

The cry of the "Straighouts" is "Down with fusion and Alvah Martin," but indications now are that the fusion will win. The Amherst contest is up in the air and the result is in doubt. If the committee goes into both, the sessions will last through tomorrow. A full attendance of the committee is expected. The campaign will open actively about September 18.

Distress Signals.

New York, Sept. 7.—A dispatch from Sea Isle City, N. J., says that distress signals in rapid succession are being sent up by the crew of a three masted schooner which is ashore on the south side of Corenne Inlet near that city. The vessel is in a serious position. The life saving service station has been notified and a crew has gone to the stranded craft The name of the vessel has not yet been ascertained. A very rough sea is prevailing which makes the work of the life savers very difficult. It is reported that the crew of the schooner consists of 18 men.

Paris, Sept. 7.—The French envoy at Fez reports that the Sultan of Morocco has agreed to fully satisfy the demands of France in connection with the arrest of the Algerian Bouzain. Both Britt and Nelson practically finished training yesterday, and will do light exercise from now until Saturday.

Arms and Bombs in Athens.

The recent discovery of a depot of arms, explosives, bombs and infernal machines in the vaults of the Armenian church at Athens, Greece, has led to the unearthing of what the police believe to be a widespread plot on the part of the Armenian revolutionary committee to compel the intervention of the powers to stop Turkish oppression in Armenia by starting a series of outrages. Incriminating documents were found pointing to the existence of other depots. A number of Armenians have been arrested and the police are actively prosecuting an inquiry into the affair. The authorities say that evidence found on the men arrested shows that they received large sums of money from the Armenian committee in America and it is also stated that the inquiry has established the connection of a number of Bulgarians and young Turks with the plot.

Patterson, a young man of good family, was held in $1,500 bail on the charge of attempted criminal assault on Cora Crittenden, the 16 year-old daughter of David H. Crittenden. The Railroad Suits.

The special term of the Circuit Court of Alexandria county, which began Monday, and is expected to last two weeks is held for the trial of some twenty-five personal injury cases against the Washington, Alexandria & Mount Vernon Railway Company. The suits grew out of the collision at Spring Park the 1st of last March and the plantiffs claim an aggregate of over $140,000 in damages. Settlements being found impracticable Judge Nicol and two juries, which alternate, are now engaged in ascertaining what should be allowed in each case. The company admits liability and the only question for the jury in any case relates to the extent of the injuries and the amount of damage. Different plantiffs are represented by Messrs. Machen and Moncure, Norton and Boothe, C. C. Carlin, W. W. Smith, Leo P. Harlow, Samuel G. Brent, and John M. Johnson. The company is represented by Messrs. Caton and Carlin and R. Walton Moore.

Price, jr., $150, and Miss Carrie Curtin $125. The case of Miss Kate Curtin was compromised for $100. All three of the plaintiffs were represented by Attorneys Norton and Boothe, of this city.

The cases which will come up today are those of Bettie Bontz, Mary Russell and Flora E. Davis, the latter colored. The case of Charles H. Wells has been continued.

A telephone message received at this office this evening stated that several of the cases had been compromised and that the court was then hearing the Haws case.

Torpedoes on the Track.

Several nights recently people living in the vicinity of the Wilkes street tunnel have been startled at night by the explosion of torpedoes on the railroad track. It is not known who places them upon the rails, but it is suggested that if it is the work of practical jokers the employees of the company are in a measure responsible for allowing irresponsible people to gain possession of the explosives. Throughout the night trains are run in and out of the tunnel, and the vibration, pulling, snorting and panting of locomotives, together with the roar of heavy trains cause enough din without the aid of torpedoes.

Killed by Falling Bucket.

John Parker, colored of this city while at work on the New York avenue, bridge over the terminal tracks in Washington yesterday afternoon, was struck on the head by an iron bucket, swinging from a hoisting derrick, and was almost instantly killed. Master Rotchford Kirby, who has been quite sick for several weeks, has recovered and is now visiting relatives at Lorton.

Mr. and Mrs. Wm. Quinn and daughter have gone to Atlantic City to spend a few weeks.

At 8:30 o'clock last night, Miss Eleanor Violet Gaines, formerly of Fauquier county, but more recently a resident of Washington, became the bride of Mr. Thomas Oliver Monk, clerk of the committee on mines and mining of the House of Representatives. The ceremony was performed by Rev. W. J. Morton, rector of Christ Church, in the presence of only the immediate relatives and a few intimate friends. The bride wore a handsome gray cloth traveling dress and a picture hat and was accompanied to the altar by Mr. P. B. Peyton, of this city, who gave her in marriage. The groom was attended by his brother, Mr. John E. Monk, a well-known young newspaper man of Washington.

Funeral.

As the sun sank below the hills yesterday evening, the remains of the late Donald McLean were laid to rest beside those of so many of his people in the family lot in St. Paul's Cemetery. After the services at St. Paul's Church, conducted by Rev. P. P. Phillips and which were largely attended, the remains were escorted to their last resting place by Alexandria-Washington Lodge of Masons, Alexandria Lodge of Elks and a delegation from the Royal Arcanum. Here, after the commitment by Rev. Mr. Phillips, the impressive burial services of the Elks were held, conducted by Exhalted Ruler W. H. P. Kelly, during which a quartette sang several selections most pathetically. Then followed the Masonic burial services, conducted by Worshipful Master W. A. Moore, jr., during which the apron and glove were deposited in the grave and the grand honors given. At the conclusion of the services, the host of friends who had assembled at the grave dispersed and left sorrowfully for their homes. The floral tributes were beautiful.

Wagon Upset.

A wagon containing four colored persons—two male and two female—rolled down the embankment on the north side of the electric railway track near Spring Park last night. The occupants were precipitated into the ditch, but, strange to say, some of them was seriously hurt, but all looked as though they had been scooped up in a mud machine when they reascended the bank.

Girls Enter Novitiate.

Mount St. Agnes College, Mount Washington, Md. was the scene yesterday of a solemn and impressive ceremony, the occasion being the entrance into the order of the Sisters of Mercy of Miss Rose Kenny, of Baltimore, a sister of Rev. T. J. Kenny, of St. Mary's Church, and Miss Fannie Rourke, of Savannah, Ga.

A solemn and silent procession of 60 nuns, members of the order, entered the chapel, followed by the two young ladies, attired in bridal costumes of white mousseline over taffeta and flowing veils, caught up with orange blossoms. After the singing the young ladies were led up to the altar, and his Eminence, the Cardinal, questioned them as to their motive in entering the religious life.

The sermon was preached by Rev. M. J. Riordan, pastor of St. Charles Catholic Church, Pikesville, after which the Mother Superior and her assistants conducted the novices from the chapel to lay aside their bridal gowns for the plain habit of a Sister of Mercy. After the Cardinal had blessed the several articles worn by the young novices they were sent to relatives as a reminder of that solemn occasion. The aspirants then prostrated themselves outside the sanctuary, an act symbolic of death to the world. During this prostration the choir and clergy chanted the solemn Latin hymn "Veni Creatore." Solemn benediction concluded the ceremony.

Girl Toilers

Gain Strength for Work

In office and factory, shop, store or kitchen girls are at work all over this land, and, alas! far beyond their strength. Young women who work are especially liable to female ills. Too often the girl is the bread winner of the family and she must toil unremittingly, no matter if her back does ache, her limbs and abdomen throb with dull pain and dragging sensations, and dizzy spells make her utterly unfit for work. These are the sure signs of female irregularities which kill beauty and youth.

Lydia E. Pinkham's Vegetable Compound

builds health and strength for all women who work and are weary. It creates the vitality that makes work easy. From the thousands of grateful letters written by working girls to Mrs. Pinkham we quote the following:

DEAR MRS. PINKHAM:—I feel it my duty to tell you the good Lydia E. Pinkham's Vegetable Compound and Blood Purifier have done for me. Before I took them I was very nervous, had dull headaches, pains in back, and monthlies were irregular. I had been to several doctors and they did me no good.

Your medicine has made me well and strong, I can do most any kind of work without complaint, and my periods are all right.

I am in better health than I ever was, and I know it is all due to your remedies. I recommend your advice and medicine to all who suffer.

MISS ABBY F. BARROWS, Nelsonville, Athens Co., Ohio.

Oh, if American girls who work would only realize that they have but one life to live, and make the most of their precious health and strength!

Mrs. Pinkham extends to every working girl who is in ill health a cordial invitation to write her for advice. Such letters are always kept strictly confidential, and from her vast experience Mrs. Pinkham probably has the very knowledge that will help you—and may save your life.

Baking Watches.

"I will be with you in a moment. I must finish the baking of this batch of watches first."

The speaker was a jeweler. He said as he worked:

"I suppose you are surprised at the idea of watch baking. I will explain. The machinery of a watch is delicate, yet it must work the same in winter as in summer, the same in Russia as in Cairo, the same in the Sahara as in Iceland. There is only one way to accomplish this—the watch must be regulated to heat and cold.

"I am regulating these watches to heat. Afterward, in a refrigerator, I will regulate them to cold. Then when they go out in the world they won't disgrace themselves in any climate. Chronometers must be regulated more carefully than watches. They are often kept for weeks in temperatures that are now zero and now 120 degrees."—Philadelphia Bulletin.

Incentives to Marriage.

Apparently the German town of Haschmann does not believe in a state of single blessedness. Annual prizes are offered to the men who wed the ugliest, the most deformed and the oldest women in the town. Eighty dollars is paid to the man who marries the ugliest, while but $60 is the reward for the one marrying the cripple. All women over forty who have been jilted at least twice bring their spouses sums which vary according to the state of the fund, which was left by a rich resident of the town. The average price paid is $50 to each unless they should be unusually numerous, while the trustees are empowered to pay a larger sum when, in their judgment, it seems wise to hold forth a special inducement to procure the marriage of some particularly unfortunate woman.

Curiosities About Wood.

The strongest wood which grows within the limits of the United States is that known as nutmeg hickory, which flourishes on the lower Arkansas river. The most elastic is tamarack, the black or shellbark standing not far below. The wood with the least elasticity and lowest specific gravity is the Fiscus aurea. The wood of the highest specific gravity is the blue wood of Texas and Mexico. The heaviest of the foreign woods are the pomegranate and the lignum vitae, and the lightest is cork. Four hundred and thirteen different species of trees grow in the various sections of the country, and of this number sixteen, when perfectly seasoned, will sink in water. These woods of high specific gravity grow mostly in the arid regions of New Mexico, Arizona and Nevada.

No Reason For Two Trips.

Patrick's wife was "ailing," and Patrick put on his Sunday best and walked four miles to the doctor's house to tell him about her.

"Now," said the doctor, when he had heard all Patrick had to say and had prepared some medicine, "here is something for your wife. I've written the directions on the bottle and I want her to try it faithfully for a fortnight. Then, if it doesn't relieve her, come to me again and I will give you another prescription."

"Now, docther, see here," said Patrick, standing straight and looking grimly at the physician. "If you have your doubts o' this curin' Mary, as it's ividentyou have by the way you spake, why don't you give me first what you're goin' to give me last?"

Torpedo Boats.

Torpedo boats do not ram the vessels against which they operate; they simply discharge self propelling torpedoes which, if they strike the vessel, explode and sink or otherwise damage it. Then, if not sunk by the enemy's fire, the torpedo boat runs away and after taking on more torpedoes is ready for service again. Torpedo boats are built very light and of enormous speed. They cannot resist gun fire and are easily sunk if hit even by comparatively light shot; therefore they operate to best advantage in the night, so that the threatened fleet has to be very wide awake with its searchlights and its light guns.

An Odd Simile.

A Scotch minister who used similes that would bring home to the rough characters around him the truths he sought to impress was once denouncing the ingratitude of man for all the benefits conferred on him by Providence.

"My friends," he said, "look at the hens when they drink. There's not ane o' them but lifts its heid in thankfulness even for the water that is sae common. Oh, that we were a' hens!"

Not Too Much For Our Good.

"Lawd," prayed the old colored deacon, "please give us in dis worl' whar we livin' at all de prosperity we kin stand, but w'en we gits dizzy wid it en goes ter celebratin' too much des send 'long old Br'er Trouble ter make us sit stiddy in de boat, en we'll be mighty thankful!"—Atlanta Constitution.

Accomplishments.

Muggins—My daughter will be a great catch for some one. She can cook or write poetry with equal ease and effectiveness. Juggins—Well, my daughter can write poetry. I never saw her try to cook it, but I'll bet she could.—Cleveland Leader.

Diamond Cut Diamond.

"This is a hard world," growled the chronic kicker.

"That's what!" replied the observant man. "The only thing with which you can make an impression on it is 'rocks.'"—Exchange.

Cowards die many times before their death; the valiant never taste of death but once.—Shakespeare.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter he says, "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure Dyspepsia, Billiousness and Kidney Disease, by E. S. THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by Gibson & Timberman and W. F. Creighton & Co.

A Laxative Cough Syrup.

"A cold or cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. It meets and corrects the above conditions, by acting as a pleasant cathartic on the bowels—expels all colds from the system and cures all coughs, croup whooping coughs, La Grippe, bronchitis, etc. Sold by W. F. Creighton & Co., 401 King street.
